Subject: RE: OCA Report for Wolverine

Hi Joe:

Thanks for the draft.

The purpose of OCA reporting is to ensure that adequate progress is being made.

Can you please make sure we get a second report on WWW before the end of this fiscal year.

And we also need one report on all other OCA sites.

I have no comment on the report – please send a copy to CCRR and cc me.

Thanks,

Nuria

Subject: OCA Report for Wolverine

Nuria,

Attached is the OCA report for the Wolverine Worldwide Former Tannery site. After some additional discussions with Daria, I have consolidated the report since she pointed out that this report should not be a technical document but more of a status report which is more in line with what this document is meant to be. Short and to the point. I had been getting too caught up in the intricate nuances of this site and her direction definitely helped clean this report up. If you all could take a quick review of the report and get back with me by Friday morning, I will final it and get it sent out the door before COB Friday. Thank you for all the help and understanding.
